This October, join SEE US, SUPPORT US, a month-long, national campaign to increase supports for children of incarcerated parents. We invite you to take action to SEE the strength and resilience of children, their caregivers, and parents, and SUPPORT them by reducing the stigma and systemic barriers they face.

► Learn about the experiences and unique needs of young children (newborn – 8 years old), including strategies for building and maintaining attachment with their incarcerated parents.

► Celebrate the resiliency of parents and caregivers who are raising children under challenging circumstances. Share stories of their strengths and strategies.

► Visit Osborne’s NYCIP Resource Toolbox to learn how to better support children and caregivers www.osborneny.org/susu.
